**IV SOLUTION KETAMINE CENTERS OF CHICAGO ONCE AGAIN
SPONSORS NAMIWALKS CHICAGO SEPTEMBER 14, 2019:**

Innovative intravenous medical treatment solution for depression advocating for awareness

CHICAGO, IL (SEPTEMBER 14, 2019) – [IV Solution Ketamine Centers of Chicago](http://www.chicagoIVsolution.com) (712 North Dearborn Street), the first private facility to offer clinically proven intravenous ketamine therapies for the treatment of depression, is thrilled to team up once again with National Alliance on Mental Illness (NAMI) Chicago in support of their [14th annual 5k walk](#) September 14, 2019 at Jackson Park (5700 E. Hayes Drive, Chicago) beginning at 3 pm (check-in 2 pm.)

In recognition of September as Suicide Awareness Month, IV Solution will join teams of walkers, organizations, individuals and families to show their support and advocacy surrounding mental illness in an effort to #breakthestigma.

“It’s important that we continue educating the public on mental health from every side to break the stigma and this is one of our favorite events of the year. It’s always an honor to team up with NAMI Chicago,” says Chief Medical Officer at IV Solution, Dr. Bal Nandra who received his training from the University of Chicago Hospitals Department of Anesthesia and Critical Care.

Adds Nandra, “In 2019, ketamine treatments for depression, anxiety, PTSD and other ailments have increased exponentially thanks in part to the FDA approval of a nasal spray as well as widespread media coverage on the life changing effects many have experienced. Our patients’ successes speak volumes and we want as many people as possible to experience the effects of ketamine and will never stop advocating for mental health awareness.”

IV Solution, Ketamine Centers of Chicago boasts a top-notch team of registered nurses with ketamine infusion experience, along with licensed therapists and technicians who care for patients and collaborate with their primary care physician, specialist, or mental health professional to optimize treatment and ensure continuity of care. They not only offer ketamine infusion protocols to treat depression, anxiety, chronic pain, fibromyalgia and more, but are now thrilled to treat those suffering from PTSD with a combination treatment protocol of ketamine and stellate-ganglion block (SGB).

Free to the community, this event features live music, giveaways, refreshments, face painters, a bounce castle, and more. For more information or to register for/donate to the walk, visit: namiwalks.org/chicago.

ABOUT IV SOLUTION KETAMINE CENTERS OF CHICAGO

IV Solution Ketamine Centers of Chicago, is the first private facility to offer clinically proven intravenous ketamine therapies for the treatment of depression, chronic pain, fibromyalgia, PTSD, post-menopausal hot flashes and other ailments.
